## Use of Photographic equipment at OVW Competitions

*In line with the recommendation in BC/WCU Child Protection Policy, the promoters of this event request that any person wishing to engage in any video, zoom or close range photography should register their details with the event organiser at the signing on desk before carrying out any such photography. The promoter reserves the right to decline any person unable to meet or abide by the promoter's conditions as set out below.*

**Professional photographers/filming/video operators** wishing to record the event should seek accreditation with the event organiser by producing their professional identification for the details to be recorded. Ideally they should request this at least five working days before the event.

**Amateur photographers/film/video operators** wishing to record the event should seek accreditation with the event organiser and record their details also outlining their motive for attending the event.

**All other spectators** wishing to use photographic/film/video equipment with a telescopic or zoom lens should register their intent with the promoter of the event.

**Accreditation procedure:** a system should be adopted whereby a record should be made of the individual's name and address and club. Professionals should register prior to the event and their identification details should be checked. On registering, promoters of events should consider issuing an identification label on the day, which can serve to highlight those who have accreditation but must ensure that where regular events occur, the identifying label is changed to prevent unofficial replication.

**If you have concerns:** if you are concerned about any photography taking place at an event, contact the event organiser and discuss it with them. If appropriate the person about whom there are concerns will be asked to refrain from using photographic equipment or leave.
